

SF Perio & Implants Presents:
A Team Implant Symposium

Maintenance Strategies and Management of
Biologic and Esthetic Complications for
Dental Implants

When:
Friday, April 19th, 8:00 am – 4:00 pm

Where:
San Francisco Marriott Union Square
480 Sutter St, San Francisco CA 94108

What:
CE Credits: 6
\$299 for registrations received by March 15th
\$350 registrations after March 15th

Who this course is for:
Restorative dentists, hygienists, dental assistants, and staff
who are in practices that place, restore, or maintain dental
implants

SF Perio & Dental Implants

Dr. Kirk Pasquinelli

Periodontist

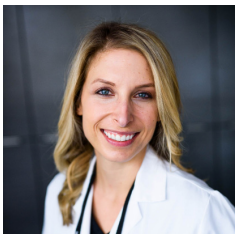

Dr. Pasquinelli received his periodontal training at the University of Washington. He is an Assistant Clinical Professor at the University of California at San Francisco School of Dentistry, Division of Graduate Prosthetics. He is a Fellow of the American Academy of Esthetic Dentistry. Dr. Pasquinelli continues to teach internationally and has authored numerous articles in the periodontal and restorative dentistry literature. He practices full-time at SFPerio & Implants, in San Francisco.

Jodi Deming RDH

Hygienist

Jodi currently works in both periodontic and prosthodontic practices. Jodi is a national and international educator, clinician, and lecturer. She has presented over a 150 lectures and workshops on advanced integration of ultrasonic and hand instrumentation. Jodi has served as adjunct faculty at the University of Southern California, School of Dentistry Department of Dental Hygiene and at Spear Education.

Dr. Nicole Olivares

Periodontist

Dr. Olivares received her BS in Biopsychology from the University of California Santa Barbara, her DDS from the University of California, Los Angeles and did her residency in periodontics at Oregon Health and Science University in Portland, Oregon. She is board certified in periodontics and dental implant surgery. Dr. Olivares has presented at numerous scientific meetings. She lectures at the UC, San Francisco School of dentistry. Dr. Olivares practices full-time at SFPerio & Implants.

SF Perio & Implants Presents: A Team Implant Symposium

Maintenance Strategies and Management of Biologic and Esthetic Complications for Dental Implants

When:
Friday, April 19th, 8:00 am – 4:00 pm

What:
CE Credits: 6

When a dental implant is needed in the esthetic zone, several challenges exist, both for the restorative dentist and for the surgeon. Once the initial surgery is completed and the crown is in place, special care and monitoring must be performed which is different from that required for teeth. Effective maintenance with the dental hygienist is key for long-term success. This course is designed for the whole dental team and will cover what makes esthetic zone implants uniquely challenging and how to best care for them and all implants.

Learning Objectives

- Understand the current state-of-the-art periodontal disease model – Polymicrobial Synergy and Dysbiosis (PSD)
- Recognize implant disease progression and master disease diagnosis
- Review the safety and efficacy of traditional hygiene techniques. Discuss the damaging effects of these techniques on restorative dentistry and root surfaces.
- Understand the types or air polishing (not all are equal) and how it differs from air abrasion
- Connect the role of air polishing and power scaling to successful biofilm management
- Learn specific maintenance techniques to cleanse healthy implants and treat implant disease in your office
- Understand how to provide greater comfort to patients during clinical procedures with superior clinical outcomes
- Understand complications that can occur with implant treatment and restoration and learn techniques to minimize potential complications
- Learn about current concepts of implant placement and restorations in the esthetic zone

Presentations:

Nicole Olivares DDS

Identification, Treatment, and Prevention of Implant Disease

Jodi Deming RDH

Role of Biofilm Around Teeth and Implants and how to Conquer it!

Jodi Deming RDH

Effective Implant Maintenance Techniques – Controlling Peri-implantitis

Kirk Pasquinelli DDS

Implants in The Esthetic Zone:
Surgical and Restorative Considerations

Cost:

\$299 for registrations received by March 15th

\$350 for registrations received after March 15th

Details:

Date: Friday April 19th

Time: 8:00 a.m. – 4:00p.m.

Location: San Francisco Marriott Union Square

480 Sutter St, San Francisco CA 94108
